Come have some family fun and see for yourself why CCS is the best choice for your family! We provide a strong, yet fun, academic program including: S.T.E.A.M., Spanish in all grades (including kindergarten!), weekly chapel, enriching after school clubs, sports, performing arts, an inclusive family atmosphere and friendships to last a lifetime.

At CCS we walk with Jesus daily and teach our students thinking strategies. By the end of kindergarten, most students read at the first or second grade level!

According to Barna Research Organization in conjunction with Cultural Research Center at Arizona Christian University, "Children begin shaping their worldview as early as 15 to 18 months of age, and by the age of 13, it's almost entirely formed. This underscores the importance of early education in shaping a child's perspective, as it is likely to remain relatively unchanged throughout their lives".
